

Nature Immersion Weekly Connection

Week of:	Nov.26-30th , 2018	
Conscious Connection	"Feeling heard and understood, allows children to release the feelings, let go and move on.." – Janet Lansbury	
Birthdays 	<u>Happy Birthday to you!</u> Ms. Sydney 11/13	
NI Recap	We hope you had a restful holiday week! It was great to see your little ones again. We had fun reconnecting and exploring some new art materials. This week we painted with foam and liquid watercolors. We painted on various textures from tree barks, to paper to leaves. We also revisited with the Feeling Buddies. I was excited to see that most all of the students remembered all the feeling buddies and the messages that each one has for us.	
Afternoon Atelier	This week in Atelier the students explored different ways to use paint, using unique surfaces and also were introduced to simple color theory with mixing primary colors. They made all the colors of the rainbow and had a blast as they watched paint turn colors. We mounted a big piece of brown paper over the slide and had them do a slip drip painting and then also using their hands to fingerprint the paper. We painted the club house with roll on paint and also decorated flower pots!
